

If you work in a corporate environment, and not as a coach, you will find Masters 50% more meaningful and useful than Practitioners alone.

Ginny, HR Consultant, IBM.

Being where I am now I cannot believe that anyone can stop at Practitioner course as this journey gave me so much more insight and understanding of NLP and my own journey and life.

Anneke, Management Consultant.

I am very used to super-professional courses - but I didn't know one could be professional AND relaxed!

Susanne, Medical Doctor, Wings Group.

I wanted options for a career change and I ended up with a new life.

Chrystal, Coach and Educational Consultant.

I am able to perform better in situations where there are many variable that I cannot "control". I use NLP skills and modelling to get the outcomes I want. My feeling of well being has improved a lot. I am much more aware of how my own thinking limits my progress. I use all the submodalities to process more fully - I am also more aware of feelings than before.

Adriana, Ph.D, Director, Teacher Trainer Centre.

The self-generative nature of NLP leaves one with ongoing skill to enhance one's life and that of others. I feel that I have way surpassed my expectation of having done the course. The Masters was so much more amazing than I had anticipated and an essential add-on to the Practitioners.

Shelley, Facilitator, Life Skills for Kids.

Unified my NLP knowledge and skills, given direction to where I am going. Needs to be experienced, cannot be communicated.

Basil, Management Consultant.

Time flies, the presenters really went out of their way to make the course a memorable experience, I enjoyed the way everything came together, how all the "techniques flowed" into one whole. Now I have the ability to move around with relative ease (long way to go yet) in NLP. A great time. It took NLP to a whole new level. It would be difficult to tell others, they should come and experience it themselves.

Christo , Specialist Development, HRD, SASOL.

STRETCH In all ways, in terms of all things ... Boundaries have been blown and even if there are "problems" that I have not dealt with yet my mind is at a POSSIBILITY ... of all things ... it gives you the opportunity to rediscover all that you are and all that you have forgotten while giving you the tools to grow and reach beyond expectation ... and you can take others to that place of possibility and discovery as well.

Sharon, Executive Coach.

The course alone has created a substantial shift for me .. and you never know how far a change will go .. so I can't wait to find out. Fabulous experience. I look forward to all the applications I'll find in the workplace and in my life.

Ginny, HR Consultant, IBM.

Valuable. Worthwhile. A must if you have done Practitioner. It was a wonderful learning space. I got so much more than I expected. Thank you.

Melissa, Coach

I enjoyed this course thoroughly. I'm beyond words. I gained so much confidence - everything from Practitioners came together on Master Prac.

Nelda, Entrepreneur.

It's the next step on an amazing journey and you keep on learning long after the lights are off

...

Elze, Trainer and Coach.

Definitely recommend doing an intensive course in South Africa. Wonderful to be so immersed in the training with great people. Trainers really know their stuff and were all very encouraging and motivating.

Gill, Managing Director, Health Training Institute (UK).

It is the most logical step after Practitioner course. It is fantastic! I had the tool box from Practitioners course and this course provided the wisdom on how and when to use those.

Nambita, Manager Corporate and Leadership Development SAA.

Excellent! THE BEST! I feel like a penny has really dropped. The Practitioners course on its own is a disservice - it's absolutely DIFFERENT having done Masters.

Carolyn, Counsellor and Tai Chi Chuan Instructor.

I hate doing evaluations but I give this course an A+. It was tough and challenging but it made me grow like a rosebush in the spring!"

Suzelle, Journalist.
